Professional Engineering & Special Inspector

Compensation

\$65,000 to \$100,000 Annually (plus commission)

Benefits Offered

401K, Dental, Life, Medical, Vision

Employment Type

Full-Time

Deatrick Engineering Associates, Inc. is a full-service Inspection, Testing, and Geotechnical Engineering firm seeking a full-time Professional Engineer and Licensed Special Inspector. A Structural Engineering background is required.

Your primary focus in this multifaceted role is a wide variety of construction projects inspections, ensuring projects conform to the standards and commitment of the firm to its clients, while also assisting with business development. This position is responsible for multiple, simultaneous projects.

RESPONSIBILITIES

- Provide construction-related analysis to our clients on a variety of diverse engineering projects.
- Perform field inspections of residential, commercial, and industrial projects for contract conformity, code compliance, and/or assessment of cause and origin, and damages.
- Review all pertinent construction documentation per clients' requests and provide honest, unbiased analysis and consultation on alleged damages and deficiencies.
- Schedule on-site inspections with property owners and develop written reports of observations and findings.
- Work closely with marketing to develop technical presentations, white papers, and case studies for continuing education and promotional efforts.
- Provide written estimates on structures to determine the value of damages and responsible parties.
- Travel is frequently required in the course of field investigations and while performing project completion duties.
- Provide timelines and project updates to clients on a consistent and timely basis.
- Other duties, as assigned.

REQUIREMENTS

- The applicant must be a Professional Engineer (P.E.) in Florida.
- Florida Special Inspector License is required or obtained within 1 year.
- Minimum of Bachelor's Degree in the related engineering field – civil or structural with 3+ years of full-time engineering experience.
- Forensic experience is highly desirable.
- Prior project engineering or construction project management is a plus.
- Expert testimony or deposition experience is preferred but not required.
- Adaptable attitude and willingness to learn new skills and techniques.
- Well organized with the ability to meet project deadlines.
- Excellent written and verbal communication skills.
- Honest and ethical business practice always.

- Able to travel and/or work a flexible schedule during periods of peak demand.
- Possess a valid driver's license with an acceptable driving record in accordance with Guardian's guidelines.
- Meet all pre-employment standards and background check requirements.
- Be willing and able to perform varied physical tasks as necessary to complete site studies. Physical tasks will include, but not be limited to, climbing stairs and ladders, walking on building roofs, crawling through confined spaces (primarily attics and crawlspaces).

BENEFITS

- Insurance Coverage (health, dental, vision, supplemental), 401K, Paid Time Off, Direct Deposit (paid weekly).
- Deatrck Engineering Associates, Inc. is a Drug-Free environment and an Equal Opportunity/Affirmative Action Employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, pregnancy, sexual orientation, gender identity, national origin, age, protected veteran status, or disability status
