

CONSTRUCTION MANAGEMENT

Take Charge! Prevent Reactive Management Costs and Consequences

Born to lead: *Construction Management and Supervision* is a one-day course involving the best practices in construction project management, supervision and leadership principles.

- ▶ Pro-Active Management Vs. Reactive Management
- ▶ Productivity – 5 Steps to Address Constraints
- ▶ Negotiations – Top 5 Strategies Workshop
- ▶ 10 Best Practices in Project Management
- ▶ Workforce Communication – Conflict Resolution
- ▶ Effective Meetings
- ▶ Top 8 Strategies for Successful Schedules

Work more efficiently, increase productivity, and propel your construction business to the next level. Learn how to effectively manage a successful construction project from conception to close-out. This workshop applies real-world situations and how to overcome obstacles while becoming more profitable. Attendees will receive management tools, techniques, an understanding of what a successful project looks like, and the empowerment to bring their very best to their projects, their teams, and their customers.

ABOUT THIS COURSE *INSTRUCTOR: Edward Stroop, CEO, The Global Construction Academy, has extensive experience in the world of architecture, construction, and coaching. As a registered architect, practicing general contractor, and construction consultant, he has seen the struggles that many construction companies face. GCA offers real world principles and techniques assembled from over 36 years' experience in Architecture and Construction and historically proven applied principles.*
