

# Stop!

## Harassment in the Workplace

As part of the annual Construction Inclusion Week initiatives, join ABC and NAMC members for a conversation on Harassment in the Workplace and strategies on creating a positive workplace culture that's inclusive and respectful to all.

With the increased demand for new workers over the past decade, there is now more diversity in race, gender, and ethnicity in the construction workplace than ever before. With the advent of this diversity, prejudice, racism, and sexual harassment may emerge from intolerant co-workers or subcontractors. Verbal exchanges, written exchanges, or signs/graffiti may cause an employee to feel threatened or unwelcome, reduce productivity or lead to confrontations.

The discussion will include perspectives from both general contractors and trade partners, and will be moderated by Josh Bell, Executive Director of the [One Orlando Alliance](#).
