

ROCKPIT BREWING OVERFLOW PARKING GUIDE

The green shaded areas are designated overflow parking for Rockpit Brewing Customers.

There are three main areas for overflow parking:

Rockpit Warehouse Parking - the spaces in front of the warehouse to the right of the main Brewery building are available to Rockpit Brewing customers. The two spaces right in front of the warehouse door are designated as “No parking”.

DOSO Office Suites: There are approximately 25 spaces available across the street from Rockpit Brewing for customer parking from 5:00 pm until midnight Monday through Friday, and all day Saturday and Sunday. There are 5 spots right in front of the building that are designated as “No Rockpit Parking” and are reserved for the DOSO Office Suite tenants at all times. Any vehicle that is in those spots without a pass will be subject to towing. Please do not park along any curbs in this lot, as any vehicle that does so will also be subject to towing.

United Against Poverty: Our partners at UP Orlando allow Rockpit Brewing customers to park in their lot during certain events. If there is signage at the gate that indicates available Rockpit Brewing parking, it is safe to park in that area. The lot will be closed and locked at midnight, and any vehicle left in the lot past midnight will remain there until the following morning at 10:00 am when the lot reopens.
