The Facts

- Child abuse is the leading cause of death in children under the age of 4.
- Violence is a self-perpetuating cycle. Without help, victims can be caught in a generational cycle of abuse.
- Abused children suffer from confusion and despair. Without help they may face mental health disorders, juvenile delinquency or substance abuse.
- Each year Kids House serves approximately 2,000 children.
- More than 3 million reports of child maltreatment are received annually in the U.S.
- A report of child abuse is made **every 10 seconds** in the U.S.
- More than FOUR children die every day in the U.S. as a result of child abuse.
- Child abuse occurs at every socioeconomic level, across ethnic and cultural lines, within all religions and at all levels of education.

About Kids House

Our mission is to prevent child abuse and to aid child abuse victims and families by providing coordinated services in a safe, child-friendly environment from report and investigation through treatment and resolution.

To accomplish this mission, Kids House provides a unique and expansive child-friendly facility for investigation and treatment for victims of abuse.

Thank you to all of our community partners for supporting Kids House.

Please join us for a **Walk In Their Shoes Tour** to hear firsthand about what happens when a child walks through our doors. Book your tour today by calling 407-324-3036 or email us at frontdesk@kidshouse.org.

Here to Serve Our Community

Kids House fosters a collaborative, child-focused environment designed to reduce additional trauma to the child, siblings and family, with an emphasis on healing.

Our CPT team members are skilled professionals who conduct non-leading interviews in a child-friendly environment.

In partnership with AdventHealth, our medical team provides forensic medical exams along with follow up care for our child victims.

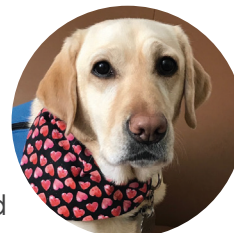

Each case is assigned a Child Advocate on-site to provide support and resources, while walking the family through the potentially complex process.

Our Licensed Mental Health team provides trauma therapy to our child victims in order to continue the healing process.

Hi, my name is Jordon!

I'm a Certified Facility Dog and I work with children who come through Kids House. I was purpose-bred and trained (for almost two years) by Canine Companions for Independence before starting my work here in 2016. I help kids start to heal from their abuse — easing anxiety, helping them feel safe and loved, helping them find their voice and gain self-confidence.

Success Stories

Meet Luke, Jamie and Crystal

At 14 months old, **Luke** is doing much better. He will always have problems from the injuries he sustained when he was violently shaken as an infant by his father.

With the help from our medical team and the support from his child advocate, his mom now has the tools she needs to care for him.

Jamie, who came to Kids House at age 15, pregnant after her stepfather raped her, has had her baby and has graduated from our therapy program at Kids House. As her healing continues, she is ready to make a better life with her child.

When four-year-old **Crystal** first came to Kids House, she wouldn't talk to anyone after suffering at the hands of her grandfather. Little Crystal is now a chatterbox. She smiles and giggles and has a full life ahead of her. At Kids House, our vision is to break the cycle of abuse and end child abuse forever.
